

Ramsar Wetland Information Signs Project

Project title	Implementation of Information Signs at the Ramsar sites in Jamaica
Project start	March 2010
Projected finish date	September 2010
Project manager	Projects Planning and Monitoring Branch
Project objectives	To design, replace/improve and install signs in areas designated Wetlands of International Importance under the Ramsar Convention (Ramsar Sites). The signs will contain specifications recommended by the Ramsar Convention. Signs will reflect the natural and cultural heritage as well as archaeological aspects of Ramsar Sites.
Problem/Need	As part of NEPA's commitment to the Ramsar Convention to protect areas that are declared as Ramsar sites and continue to develop and educate Jamaicans about the importance of protecting wetlands and mangroves, information signs will be erected.
Proposed budget	US\$ \$7,584.58

Project deliverables	Ramsar Site	Number of signs	Dimensions (ft)
	Black River Lower Morass	3	8 x 4
	Palisadoes-Port Royal	2	8 x 4
		1	4 x 4
	Portland Bight Wetland and Cays	3	8 x 4

**Order of magnitude
cost estimate in US\$**

Activity	Quantity	Price	Amount CHF\$
Design of Signs			
Black River Lower Morass	3	600.00	1,800.00
Palisadoes- Port Royal	3	600.00	1,800.00
Portland Bight Wetland and Cays	3	600.00	1,800.00
Fabrication and Installation	1	100.00	100.00
Public Awareness Activities			
Computer Equipment	1	1,400.00	1,400.00
Posters	200	500.00	500.00
Brochures	5000	600.00	600.00
Grand Total			8,000.00
