

# Protected Areas

To view the legislation for each Protected Area, click on the respective link.

## PROTECTED AREAS SYSTEM

**National Parks**  
These are lands and/or sea managed mainly for the conservation of the ecological integrity of ecosystems. They are also managed for scientific research, education and recreation.

**Protected Areas**  
An area of land and/or sea dedicated to the protection and maintenance of natural and cultural values, and managed through legal or other effective means. These areas do not necessarily exclude industrial or or any other type of economic activity.
