

KINGSTON HARBOUR ENVIRONMENTAL MANAGEMENT PROGRAMME

Pollution Prevention Branch
Prepared: 9 March 2010

Aims – *Private Sector*

- To identify entities that pose a threat to the Kingston Harbour
- To ensure that steps are taken to correct all breaches
- Conduct assessments of facilities directly or indirectly impacting on Kingston Harbour.

Aims – *Public Sector*

Discussions to be held with these entities to determine mitigative strategies:

- NSWMA
- NWC
- St. Catherine Parish Council
- NWA
- KSAC
- Ministry of Agriculture

Aims – *Public Sector*

- Integrated approach to management of solid wastes
 - Implementation of watershed management programmes adopting the IWCAM Model (successfully implemented in the Driver's River Watershed, Portland)
 - NEPA to partner with other agencies of Government and stakeholders (NSWMA, Parish Councils etc.)

KHEMP - Phases

- Phase 1: Preliminary Review of existing information on Kingston Harbour (September 2009)
- Phase 2: Assessment of Private sector entities and follow-up Actions (October 2009 to April 2010)

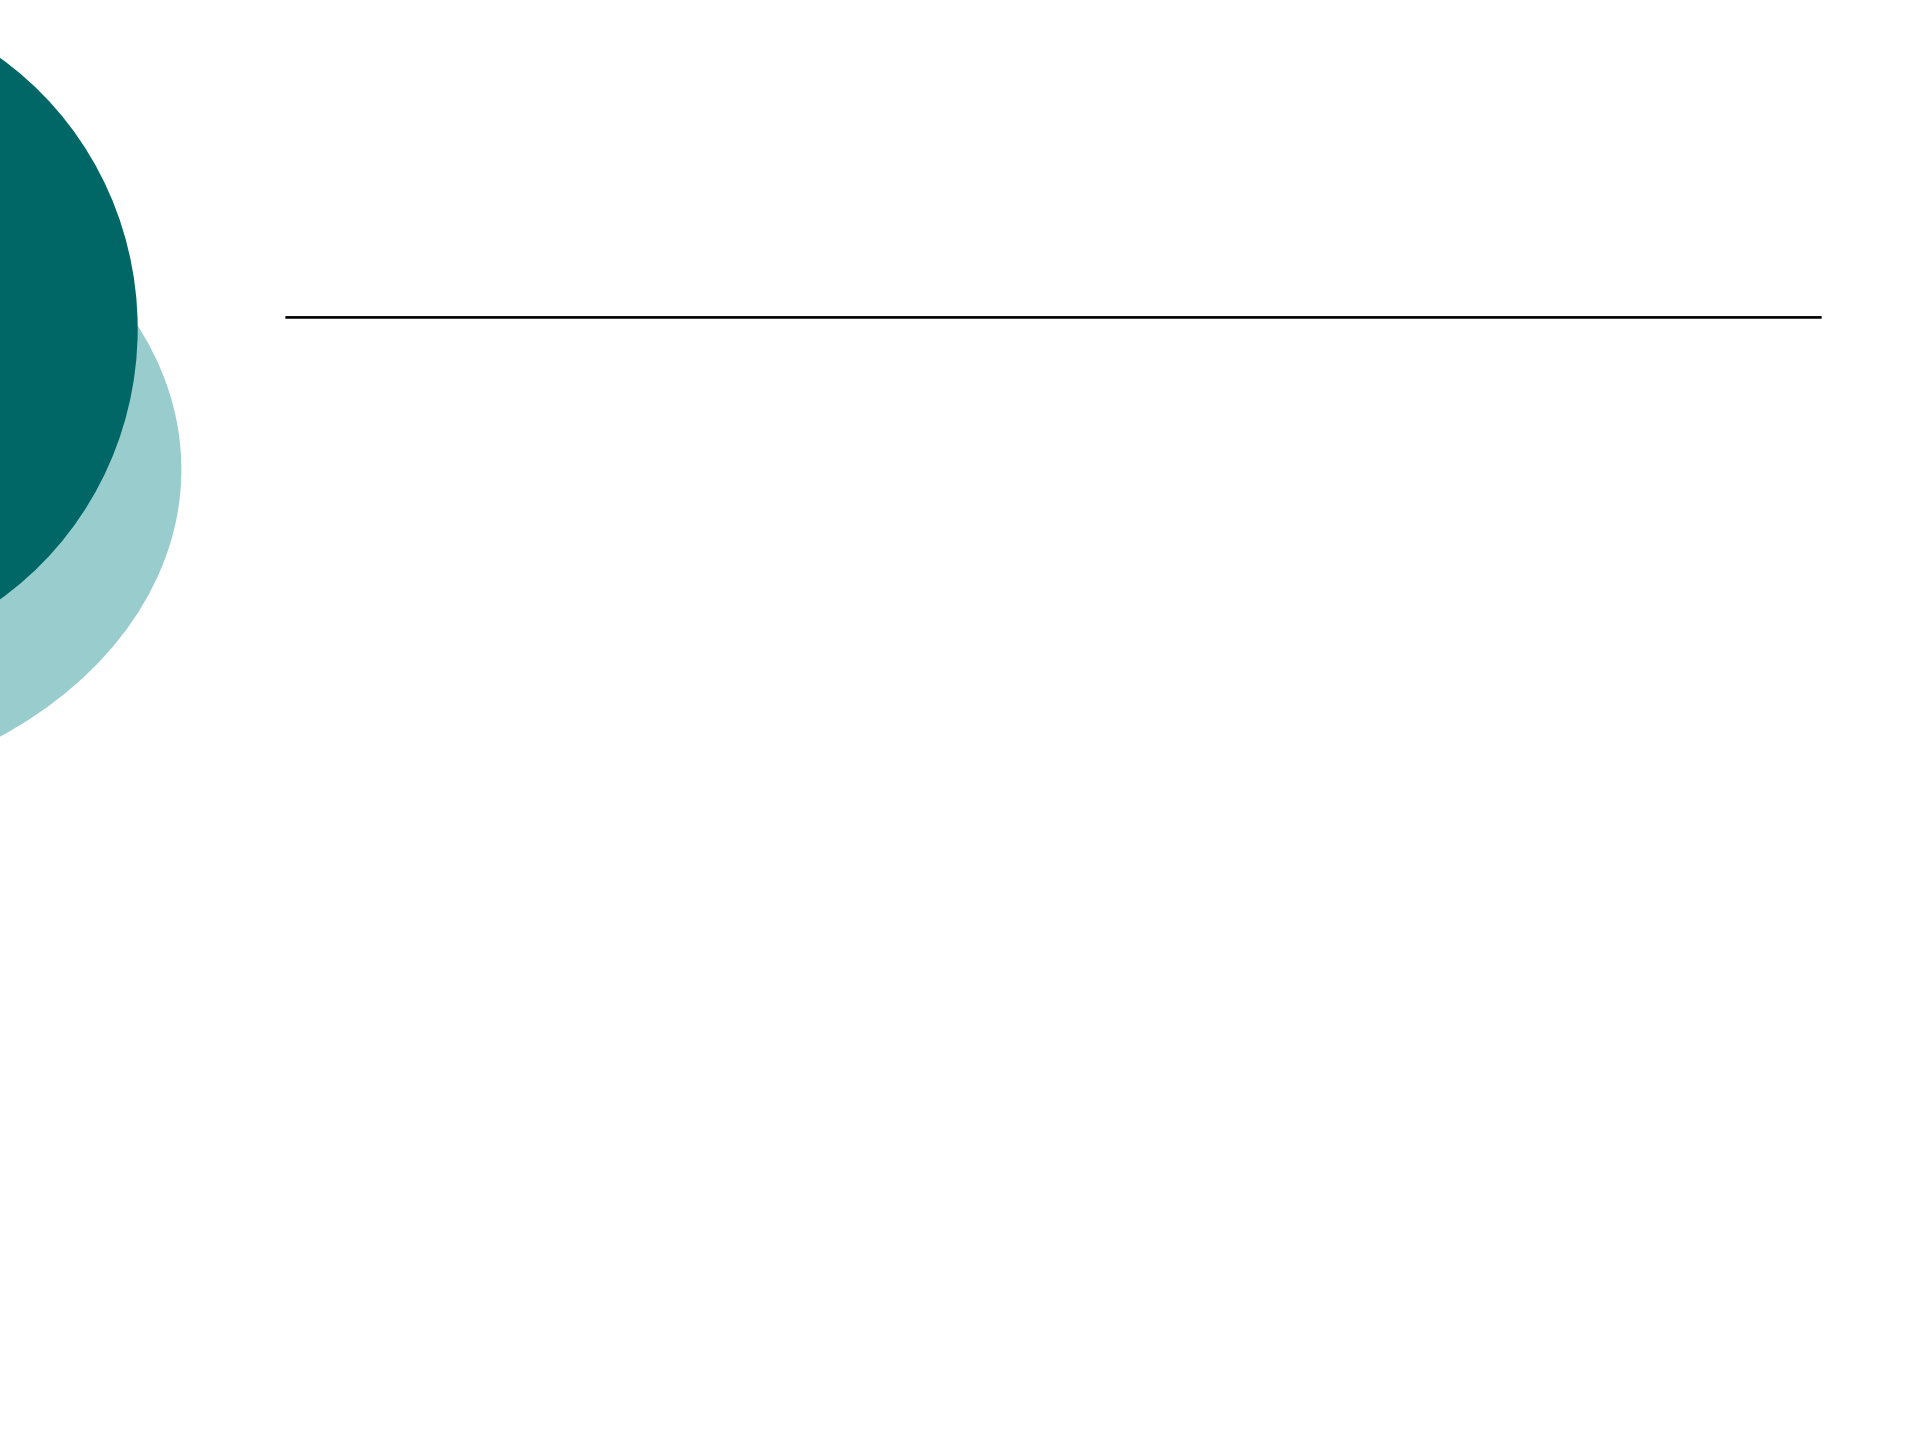

Phases (cont'd)

- Phase 3: Addressing impacts of Public sector stakeholders
- Phase 4: Proposed remediation of Kingston Harbour

Current Status

- >40 companies assessed in Kingston
- Mandatory compliance with
 - Environmental standards/guidelines
 - Environmental legislation
 - Applications for EP & EL
 - Prevention of pollution measures
 - Industry best practices
